Chargers and Testing Equipment

We fully appreciate the importance of reliable and well made diagnostic equipment in the workshop. With this in mind all the chargers and testers in our range have robust cases, carrying handles and are fully insulated.

Alphabet and Alphabet Pro

The perfect diagnostic tools to ensure that optimum battery performance is obtained. The Alphabet range are some of the most accurate capacity testers you can buy. They work by putting a constant 20 amp load on the battery, and monitoring the falling voltage. They can also be connected to a computer to display, store and retrieve the test results.
