

RAMP4 ACCESS RAMPS

As mobility and access issues become more important to a greater number of people, Flexel have designed and produced a range of access & loading ramps branded **RAMP4**.

Made from a lightweight aluminium honeycomb material, the ramps are superbly engineered and incredibly tough. The Flexel **RAMP4** range consists of 11 models - all designed to provide the most practical solution to your needs with the standards of manufacture second to none.

BS EN ISO 9001:2008 Certificate No. F539101

RAMP4 ACCESS RAMPS

Designed to be as portable as possible **RAMP4** Access Ramps fold up for maximum ease of transport and feature practical carrying handles as well as anti-slip surfaces and safety side edges.

From the smallest 700mm wide compact unit to the incredible 3 metre long double-fold ramp the standards of design and manufacture are the same. And when it comes to value you'll not find better quality ramps at anywhere near the price either.

Simply call Flexel today and ask to see the great range of **RAMP4** access ramps for yourself.

RAMP4 - Manufactured to the highest possible standards. Yours.

Before designing & manufacturing our new range we listened to our customers. We wanted to produce a ramp that would satisfy the most demanding of standards whilst still being affordable. Every one of the **RAMP4** range has been put through their paces. So we're sure you'll find them more than a match for your needs.

RAMP4 ACCESS RAMPS

Product Range and Specifications

RAMP4 - Easy Travel

The Easy Travel ramp is the most compact of our mobility access range. It simply folds open and is then ready for use - anywhere and at anytime. What more could you ask for from a ramp?

Part No.	Width (mm / inches)	Length (mm / inches)	Weight (kg / lb)	Max Load (kg / lb)
R4/450ET	710 / 28	450/18	4.1/9	300/660

RAMP4 - Compact One

The Compact One is a superbly practical mobility aid. Able to carry a 300kg payload, it has to be a practical choice when it comes to easy access solutions.

Part No.	Width (mm / inches)	Length (mm / inches)	Weight (kg / lb)	Max Load (kg / lb)
R4/700C1	760 / 30	700/28	6.3/14	300/660
R4/900C1	760 / 30	900/36	7.6/17	300/660
R4/1200C1	760 / 30	1200/48	9.5/21	300/660
R4/1500C1	760 / 30	1500/60	11.5/26	300/660

Product Range and Specifications

RAMP4 - Compact Two

The Compact Two ramp offers customers the longest ramp on the market, yet, amazingly, folds up to half the length to become totally portable with the integral carrying handle.

Part No.	Width (mm / inches)	Length (mm / inches)	Weight (kg / lb)	Max Load (kg / lb)
R4/1800C2	380 / 15	1800/72	2x 7.1/16	2x 150/330
R4/2400C2	380 / 15	2400/96	2x 10.6/24	2x 150/330
R4/3000C2	380 / 15	3000/120	2x 12.4/28	2x 150/330

RAMP4 - Channel

The Channel ramp allows both access and loading of wheelchairs and four wheel scooters. Channels fold in half for compact storage and lightweight portability.

Part No.	Width (mm / inches)	Length (mm / inches)	Weight (kg / lb)	Max Load (kg / lb)
R4/1500C3	250 / 10	1500/60	2x 5.0/11	2x 200/440
R4/1800C3	250 / 10	1800/72	2x 5.7/13	2x 200/440
R4/2100C3	250 / 10	2100/84	2x 6.8/15	2x 200/440
